[more...](#)

A Portal into the inner workings of your brain. It's your job to understand yourself.

Drag tags into the wells to customize filterable layers.

Drag metrics into wells with one or more chainable, map reducible calculators on top, to customize the data series you'd like to see on the screen.

The configurations should save in the URL, so they are easy to bookmark.

Thresholds should be configurable by dragging the red line up and down.

@see: [storyweb/metrics/spc?startDate={yyyyMMdd}&endDate={yyyyMMdd}](#)

Each point comes from a story. This panel will update dynamically whenever the filters above are adjusted.

Hovering over rows here, highlights the data points above and vice-versa.
